

# NON EDIBLE RECIPE

# Slime

## Ingredients

- ½ tbsp. baking soda
- 1 tbsp. contact solution
- 4 fl oz Elmer's white school glue
- Food coloring (optional)

## Directions

- Pour out the entire contents of a 4oz of Elmer's school glue into a bowl.
- Add ½ tbsp. of baking soda and mix.
- After mixing, add your choice of food colouring. Mix and add more food colouring until you get the colour you want.
- Add 1 tbsp. of contact solution. Mix until slime forms and it begins to get harder to mix.
- Take the slime out of bowl and begin kneading with both of your hands.
- If needed, add ¼ Tbsp. contact solution to make the slime less sticky.
