

NON EDIBLE RECIPE

Soap Foam

Ingredients

- Dish soap or bubble bath
- 1 cup water
- Food colouring (optional)
- Food processor

Supplies

- Small play tray
- Whisks, scoops, small plastic containers
- Mini plastic figures

Play Ideas

While playing with soap foam is a fun sensory play activity by itself, creating small worlds using foam as the base can add to the fun.

- Ocean
- Duck Pond
- Fishing
- Letter Hunt

Directions

- Pour 1 cup water into food processor and add a squirt of dish soap. Add 1-2 drops of food colouring.
- Whiz up water & dish soap until fluffy and firm.
- Spoon into play tray & invite your little one to have fun learning, playing and exploring with their soap foam.

Tip - Play around with the amount of soap and water you add until you get a soft fluffy foam you are happy with. Some sensory play activities are better with a firmer foam while others are better with a more runny foam.
